

# ABOUT US

FUELING THE HYDROGEN REVOLUTION

# ONEH2™

OneH2 was founded in 2015 with a mission to create a zero-emissions future fueled by sustainable, affordable, and reliable zero-carbon power.

We Provide:

- On-Site Hydrogen Generation Equipment
- Delivered Hydrogen Fuel Services
- Maintenance and Monitoring

## IMPROVED HYDROGEN GENERATION & DISTRIBUTION

### ON-SITE GENERATION

OneH2 hydrogen generators offer a simpler, more efficient architecture with convenient remote monitoring features.

**Result:** Higher uptime performance with lower maintenance costs.

### DISTRIBUTION

OneH2 developed a solution to transport hydrogen in a high-pressure gaseous form, at the right pressure and purity for immediate use.

**Result:** Hydrogen fuel is ready for immediate use upon delivery, and no extra energy is needed to keep the fuel stable in transit. OneH2 trailers and cylinders are approved for transport by the DOT.

## ABOUT US

FUELING THE HYDROGEN REVOLUTION

## MAKING HYDROGEN ACCESSIBLE HYDROGEN GENERATION EQUIPMENT

- Generators
- Terminals and Hubs
- Dispensers

## DELIVERED HYDROGEN

- Scheduled or as-needed delivery
- Mobile refueling options

## APPLICATIONS

### INDUSTRIES

- Logistics & Material Handling
- Trucking & Transportation
- Agriculture
- Manufacturing & Construction
- Shipping & Ports

### DELIVERED HYDROGEN

- Lift Trucks
- Fleet Vehicles
- Tractors and Combines
- Diggers and Excavators
- Public Transportation Vehicles
